MAIN TYPES OF HIMALAYAN SALT

Himalayan salt is harvested in three distinct types: **Pink, Light Pink, and White**, each with unique hues and benefits. These raw salts are then crafted into various shapes and forms to cater to different uses and requirements.

PLEASE NOTE

All Products Can Order
in any kind of Salt.

Pink, Light Pink or White

Always Ask Price as per you quantity
and your requirements

PINK SALT

Rich in over 84 trace minerals, including iron, magnesium, and potassium, our Pink Salt not only enhances the flavor of your meals but also contributes to electrolyte balance and hydration. Its vivid pink color, resulting from iron oxide, makes it a visually striking addition to any culinary presentation.

LIGHT PINK SALT

Featuring a delicate balance of minerals with a lower concentration of iron, our Light Pink Salt provides a softer flavor suited for subtle seasoning. Physically, it retains all the hygroscopic properties of pink salt, making it effective in maintaining moisture balance in foods.

WHITE SALT

Our White Salt is a pure sodium chloride compound, free from the mineral impurities that color other salts, providing a sharp, clean taste that enhances any dish. It's ideal for culinary uses where purity and solubility are key, such as in brining solutions or baking recipes where precise chemical reactions are required.

ABOUT US

Macro Traders, a distinguished name in the Himalayan salt trade, specializes in sourcing and distributing the finest salt products from Pakistan's renowned salt mines. As traders committed to excellence, we ensure that each salt product, from one table spoon of salt to decorative lamps and culinary salts, meets the highest quality standards. Our mission is to globally promote the versatility and health benefits of Himalayan salt, making superior quality accessible to our valued customers. Trust Macro Traders for your salt needs — where tradition meets quality.

Efficient global shipping ensures your Himalayan salt products are delivered swiftly and securely to your doorstep.

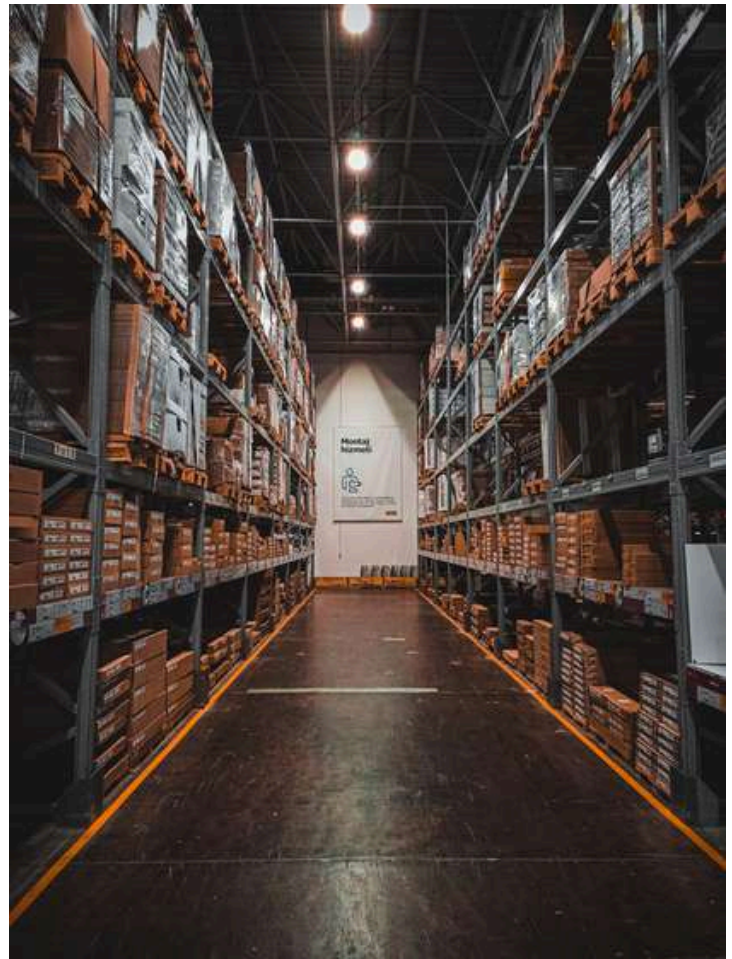

Our packaging is robust and designed to maintain the integrity of the salt, ensuring it arrives in perfect condition.

Committed to sustainability, we utilize eco-friendly practices that minimize environmental impact.

All our products are certified for quality and come with a guarantee of purity and satisfaction.
